Introduction:

Hi, my name is Catarina Silva, I`m 15 years old and I live in Unhos. I`m shy until I gain confidence but I love staying home on the couch watching movies and shows. I really like to eat but I never give me mango or papaya.

My father is Filipe and my mother is Sonia, I have a sister whose name is Inês. I also have a dog named Scott.

My grandparents are called Sergio and Filomena, my cousin Diogo who is the same age as me, my uncle Jorge and my aunt Claudia, my mother`s sister has got two cats, Zubat and Stinky, which are staying at her house. We have a new family member which is called Cacau, a female dog which came from a kennel.

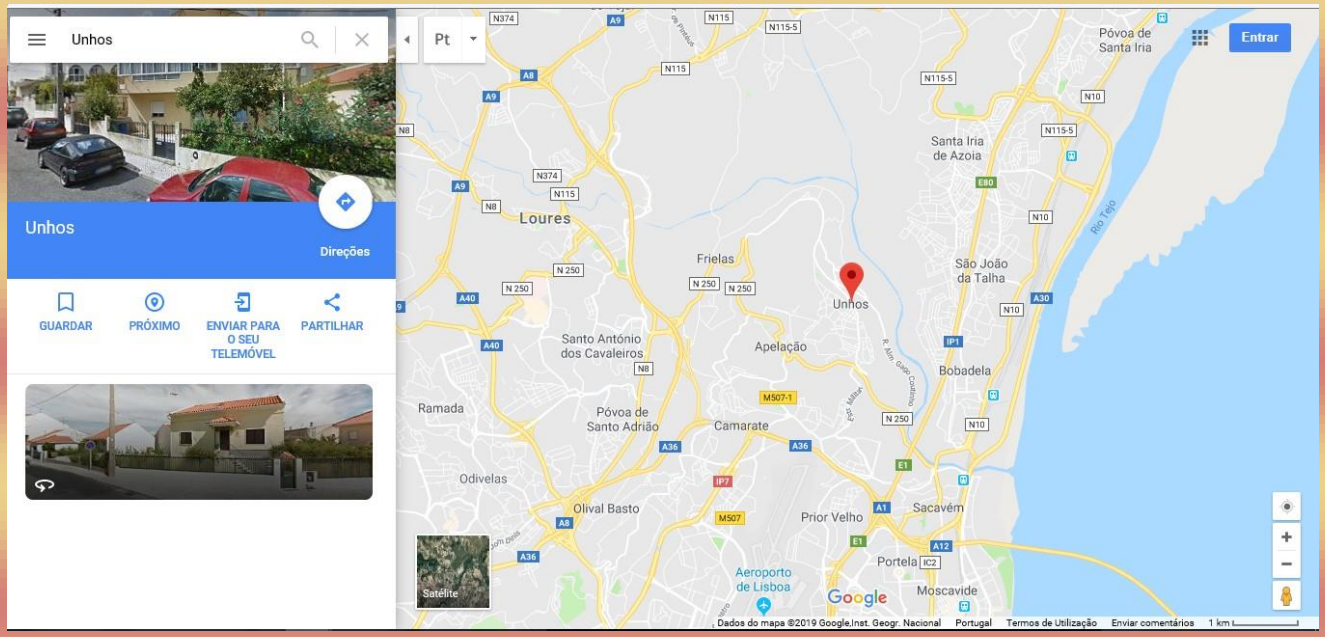
My father`s family lives in Canada and the mother`s family in Sacavém which is right next to Unhos and is where we buy what we need but we also have a LoureShopping which is a shopping center that is in my city in Loures.

My House

Unhos is a small village with many villas and no supermarkets. It has four cafes, a church, a workshop and two groccery stores.

My house is a 3-floor building. The main floor has the kitchen, the living room, the office and a bathroom. In the second floor we have the bedrooms and then the attic. Finally, we have a garage with a small storage room and a pool with a vegetable garden.

I have my own room with a bath and my own closet, secretary and a double bed.

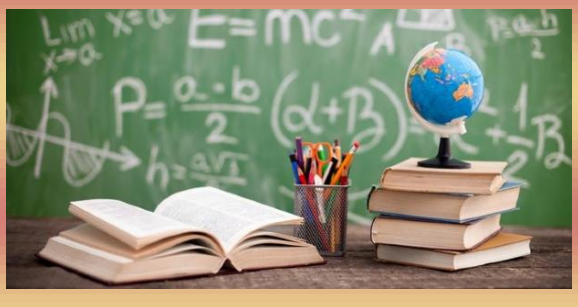


Routine:

Every morning I wake up and get ready for school, I leave home before 8 am and I take my sister to school. After this, my father takes me to the subway and I go to school with a friend. After classes I take the subway and bus to my grandparent`s house or my father will pick me up at the subway stop. When I get home, I eat and prepare the backpack for the next day but in some days I take my sister to acrobatic gym training.

School:

School is very welcoming as it is small, it seems that we have known people since always and they are all friendly.
In school, I usually spend a lot of time in the bar, but I take food from home for my lunch.
In classes, there are always new projects and funny activities and teachers are always willing to help.

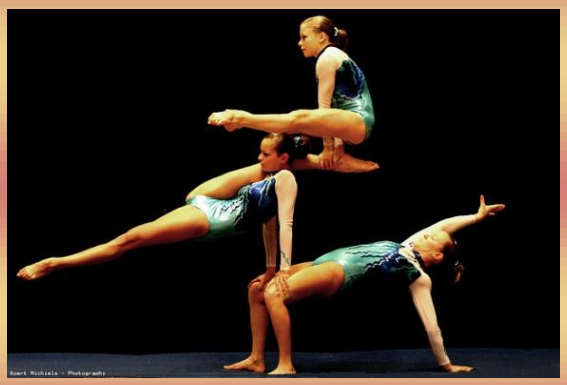


I love my class and I get along specially three girls, Constança, Margarida and Raquel who is my best friend since 9th grade.

Hobbies:

In my free times, I usually watch television. I also study for my tests or do homework. In my free time, I help my parents and listen to music.

I already made acrobatic gymnastics and teamgym but this year I decided to stop due to school and lack of time, but it is my passion. I've started to play gymnastics four years ago. I didn't know has to do figures, I started to evolve and each time more I love what I do.



Also, I love listening to all the type of music and I also to watch movies and serials on TV, in particular comedy, suspense, romance, drama and action. I enjoy writing and reading but I don't do many times.

I love to hang out with my friends and go out in the evening, but I don't do it very often.

I go send a video where has photos and videos of me, of my family and everything that is present in my life.
