

# ***Presentation about me.***

My name is Alejandro Herrero Márquez, my friends call me Ale. I am 15 years old and I live in Seville, in a neighborhood called Poligono De San Pablo.

I'm a sports fan, especially basketball. At the moment I play in a professional team for people of my age.

The last year I played in the Cajasol Team. In my free time, I also like to listen to all types of music.

I live in a flat with my mother, my father and my sister.

I am a demanding person in studies and sports. I hate people who are very false. Right now I am studying fourth of secondary and in the future I would like to study physiotherapy. One thing I have always wanted to do is travel to USA to watch a NBA match with my father because when I was little my father taught me how to play basketball.
