

Introduction of myself

My name is Martin and I´m 14 years old.

Together with my parents Josef and Wilhelmine, who both work as bank clerks, I live in a house in a small city called St. Andrä in Austria.

I am currently attending the 5B class of the Stiftsgymnasium St. Paul.

One of my hobbies is playing the drums. I`ve been learning this instrument for 9 years now. Some other hobbies of mine are mountain-biking and skiing. But I also often meet friends or play computer games.

My favourite food is “Wiener Schnitzel” and “Kärntner Nudel”, both traditional Austrian dishes.

In the holidays my parents and I often visit other countries. For example two years ago we went to Ireland. But we also often go skiing in the winter which is very popular in Austria.
