

Hello everyone!

My name is Laura-Mercedes. I am 14 years old and I was born in April. I live in a house with garden in Kühnsdorf, Carinthia. There I live with my parents and my little sister Lena as well as our dog Merlin and the three turtles Stella, Lotti and Charlie.

From Monday to Friday I take the train to my school, the Stiftsgymnasium St.Paul, where I attend the ninth grade. My sister Lena visits the same school.

My family is a very important part of my life. My dad Christian works as a Senior Software Engineer and my mom Tanja as a chief secretary. Lena is 12 years old and a little bit clumsy. Sometimes we are so different but most of the time we are a dream team. We see our grandparents nearly every day even though we do not live in the same house. To my aunt I have a special bond. She is like a older sister to me and I am the little darling of my uncle. So we three have planned my confirmation. A crazy fact you should know: Our turtles sleep in an extra fridge over the winter.

Another very important part of my life are my best friends Hannah, Julia and Alisa. I know them for many years. We often have lunch together with other friends. We talk about our school and since I am also a friend of older students, my friends and I get some useful tips. But this is not the only thing that we do. During the summer holidays we meet at the nearby lake and go swimming. As a group we do a lot and have lots of fun together.

One of my favourite hobbies is music. So it is easy to guess that I am probably playing an instrument - guitar for eight years. Near our home is a dancing school where I sometimes go to learn the standard dances. I am beginner but it is a lot of fun. In the summer holidays I read a lot of romantic novels and in the last four years I took part in an English camp. Near our home is a dancing school where I go sometimes to learn the standard dances. I am beginner but it makes a lot of fun. When the weather is warmer I like going to the nearby lake with my family or friends and running with Merlin on dirt roads. Another hobby of mine is to design rooms on my Laptop but it is also one of my possible career aspirations.
