Hello everyone!

My name is Lea and I'm 15 years old. Currently I'm attending the fifth grade at the 'Stiftsgymnasium St. Paul', where my favourite subjects are sports and French.

My family

Together with my parents and my grandparents I live in a two family home in a little village called Mittlern, about half an hour away from my school. My mum is a teacher at a technical school and my dad works for the Canon company. Both my parents love travelling and so they often provide me the opportunity to visit breathtaking places around the world with them. My grandparents are both retired but they do a lot of the work around the house and my grandma also cooks our family's daily meals. I haven't got any siblings or pets.

My hobbies

I spend most of my free time doing activities like dancing or climbing. I have been dancing ballet since I was a little girl and two years ago I also started a kind of more unusal hobby: I do Aerial acrobatics regularly. When I'm not dancing, you will propably find me practising climbing. Even though I love doing it in the climbing halls, I prefer hiking up a mountain and climbing in the nature. The thrill

you feel then is something I will propably never get enough of. Normally I do it together with my father who is a great climber as well and loves the mountains and the activities you can do there as much as I do. For example, in the winter, when we can't go climbing, we go skiing, another activity I adore and I share this hobby with some of my friends. Furthermore I've been playing the piano for eight years now and I'm also quite fond of reading and sometimes also writing my own little stories.

My friends

I've known my two best friends for nearly four years now and since then we always stick together as a trio. This school year I came into a new class where I met more amzing people who I am all now extremely good friends with. I basically couldn't imagine my world without them.
