# Hello everybody!

My name is Magdalena Pototschnig, but all of my friends call me Magdi. I was born in 2003, so I'm 15 years old. I currently attend the 6th grade of the „Stiftsgymnasium St.Paul", which is a catholic private high school in Saint Paul.

My family

My family and I live in a small village near Völkermarkt. My mum is a physiotherapist in a hospital in Klagenfurt, the capital city of Carinthia. My dad has his own business in Griffen where he develops different projects.
Eventhough I grew up as an only child, I have this special connection to my cousin Anna who is like my elder sister.

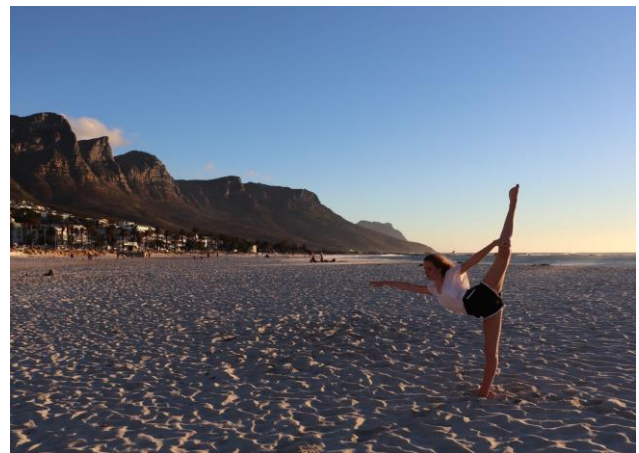

My Hobbies

In winter you'll probably see me gliding on the snow, because when I'm skiingI feel free everytime the cold wind blows into my face. My dad taught me how to ski when I was only two to three years old, as you can see in the picture.

My real passion is dancing. I have danced for twelve years, but unfortunately I had to quit, because I wasn't able to cope with the training sessions and the stress at school at the same time. I practiced many different types of dance like musical, jazz, lyrical and tap dance and every year, my dance class and I took part in the ESDU, the „European Dance Union" Championship.

I also spend a lot of time hanging around with my friends. My favourite people are the ones who make me laugh all the time.
I may be shy sometimes, but if you know me well, I'm really not.
