

That`s me

My name is Elena and I am 14 years old. I live in a small village near Völkermarkt, which is half an hour away from school. I currently attend the 5A of the „Stiftsgymnasium St.Paul“.

I live in a house with my parents Monika and Karl and my younger brother Samuel, who goes to the same school. My mother works in a retirement home and my father works in a company.

I also own a dog with my cousins. Our dog Lucy lives at our grandparents' place because they have a farm with many different animals. Lucy is 2 years old and is a Border-Collie Mix. She is very cute and loves to play with the dog of our neighbours.

I often spend my spare time with my dog Lucy and my cousins because I have known them since I was born. But I also love to swim and to sing.

My friends also play a big role in my life. This year I came into a new class where I found many new friends. My friends and I love to sing in the breaks and in the music lessons but we are also a very funny group who loves to laugh and making jokes.
