

Hello,

my name is Hannah and I am 16 years old. My family and I are living in a little village 16 km away from St.Paul. Currently I am attending the 6th grade of the Stiftsgymnasium St.Paul.

My family,

consist of my parents, my brother and my sister. My dad works as an electrician and my mum works as a nurse. My brother Raphael works at the company of our uncle and my sister Valentina studies law. I am the youngest and the only child who lives at home.

A little bit about myself

I have two dogs named Blitz ("lightning" in English) and Dixi. I like to listen to all kinds of music, except classical music. Currently I like AnnenMayKantereit, Kraftklub, Alligatoah (they are German), Skrillex, Billie Eilish, also Frank Sinatra, Nirvana, Panic! At the disco, David Bowie & Prince, but that changes about every week. (And I am sure that I forgot someone)

I love to read books and watch series & movies. For example I like mystery, horror, romantic, drama, fantasy... I work in our school library, which I really love and I also write my own stories, but I only show them to certain friends. I do not like sports at all but I like basketball and badminton. My favorite subjects in school are Geography and History. I love to draw, so all my school books are full of sketches, flowers and random things. I do not really want to show my pictures to someone else.

that's me with a curtain in front of the face on a school-trip

Baking and cooking are also one of my hobbies, but mostly I never like my dishes, but others enjoy them. I am lazy and chaotic and I am sometimes engrossed in good books or series which is not always beneficial for my grades. If my friends had to describe me, they would say that I am an extrovert, loud, crazy and funny person.
