

Hello out there!

My name is Alisa and I'm 14 years old. I live in St. Paul which is in the beautiful Lavanttal, in a house with my mum, her partner Martin and my brother Eric. I also have eight cats. Crazy, right?

My mum studied zoology and is working with my aunt, who's a vet. My brother Eric is currently attending the second form of Stiftsgymnasium St. Paul.

My Hobbies

I don't have a lot of hobbies but I love reading, watching TV-series like The Sinner, Rick and Morty, American Gods and The Good Place, watching movies and listening to music, my favorite band is Twenty One Pilots. I'm also a big fan of Marvel and some people would call me a geek.

My Friends

I think I do have a lot of friends, but only a few really good ones. Some of them are also in this project, which makes me really happy. But my absolute best friend is Hannah, who's always

there for me and always stands by my side. She's a really funny, kind and understanding person. And I would also call her a genius, but don't tell her XD.

My friends would describe me as a funny, really open-minded and nice, intelligent (also very talkative) and beautiful person (I asked them; they really said that XD).
