Well, first of all, I want to thank all the people who participate and will participate in this project for giving me the opportunity to belong to this project.

This is me:

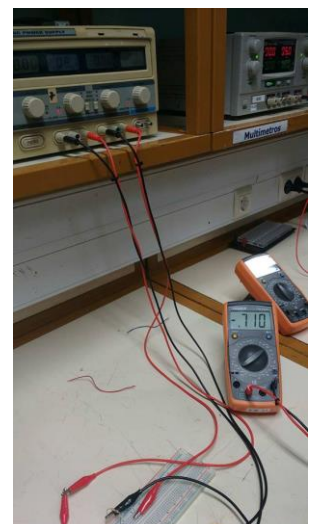

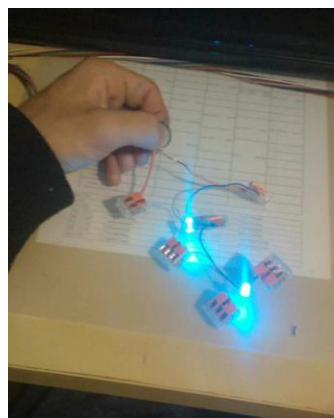

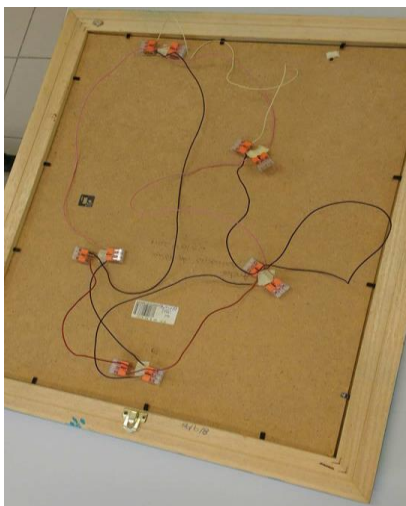

My name is André Miguel Pereira dos Santos, I am 18 years old. I was born in Portugal on 9 January 2001. I live in Lisbon more properly in Massamá, which belongs to Sintra. I live in a flat with my father, my mother and my younger brother. Curiosity my mother was born in Angola.

I'm a very outgoing, committed but stubborn person. I'd say my best feature is to be decisive and committed to what I like.

What I love most about life is football. I'm passionate about this sport and everything around it. Other great passions I have are for example Dragonball, I would say perhaps that I consider myself as a number one fan, and another passion is the course I am attending, I am having very high grades, it is something I will not let escape.

Below are some pictures where I show you what you do in my course.

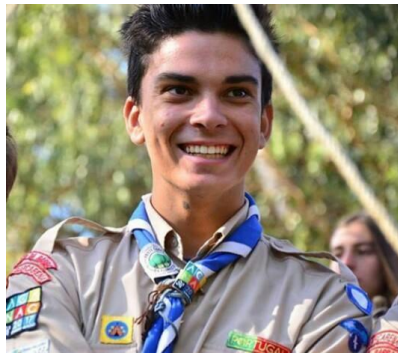

My routine:

My Monday-Friday routine focuses mostly on school, or I'm in class, or I'm studying and doing jobs. Sometimes I give a school break to rest my head and go out with my friends or do something I like. My school is about 17 Km from my home so I have to wake up early to get to school hours, usually catch a train and bus but I can also take the Metro.

Right now I'm taking my driving license so during the week I also have lessons.

On Saturdays I usually get up late late, and then in the afternoon I attend Scouts. Sometimes the Scouts meetings are on Sundays. In my free time I have on weekends I usually go out with friends, play PlayStation 4. I'm a person who doesn't like to have fixed routines, so every day I try to do something different.

Hobbies, preferences and dreams:

Well above I have mentioned some of my hobbies, but I can say even more. As I said I'm a scout, I like to play videogames mainly FIFA19, I usually go out with friends and a great hobby my most recent is to destroy mechanical and electrical objects and construct objects. One of my great hobbies is watching DragonBall, I've seen all the series and all the movies I'm looking forward to the new series.

As I'm already totally in love with football. The football club is Sporting Clube de Portugal but is also very fan of Liverpool or Juventus. My favorite reader is the great CR7, Cristiano Ronaldo, one of my dreams is to know him.

I am a person who wants to pursue a military career in the Air Force and so I am passionate about military aircraft.

My musical style is rap and trap. My favorite artists are Trippie Red, Travis Scott, Xxxtentacion and Sippinpurp. My favorite Portuguese song is called "Sauce" from Sippinpurp and my foreign music ~ is all that belongs to Trippie Red, Travis Scott or X

Well this is, I hope you want to know me as much as I want to know you and participate in this project. A great time already.
