My tastes

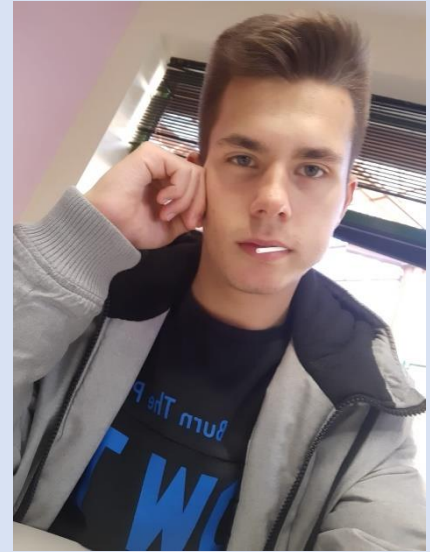

I don't have anything in particular that I love to do, but I like and feel great doing stuff that most of the time are completely different from one another.

One of the things that I enjoy doing is reading, usually literature, but also personal development books. Besides learning a lot, it also takes me to other places. Usually I read on the bus on my way to school.

Other thing that I love to do is drinking tea, especially in winter. It does well to the health, it warms you and I love the taste of it, mainly green tea. Even though some people think it is strange, I never put sugar and I also take one thermal bottle with tea to school and drink it throughout the day.

When I get home, in order to relax, I usually go to my pc and I listen to some music while playing video games, two normal things that I really enjoy doing because it distracts me and makes me relax.

I also need to talk about the cinema 'cause almost every week I go, mainly to watch horror movies. The adrenaline and the fear is what I like the most, and we also can't forget about the popcorn that is so tasty.

About the school

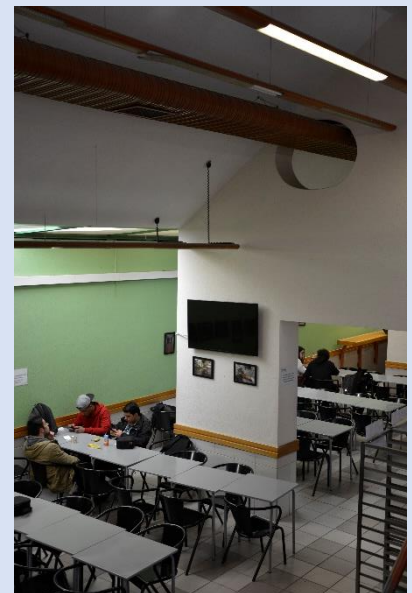

I study at INETE or Institute of Technical Education that is located in Arroios.

I'm on the second grade of the accounting course and I'm loving it.

The school is not very big but that makes it more cozy, because all the students and the teachers know each other, which makes it much easier for the integration of students, even when they are having difficulties.

The school has about 600 students, 29 classes, of 8 courses. Most courses only have 1 class per year.

This year I'm the President of the student association.

About my house

My house is located at Ajuda , in Lisbon.

It is a T3, where 4 people live: me , my grandmother and my 2 uncles.

Near Ajuda, there are some several turistic points like Belém and the palace.

The view is one of the best things of this house, we can see the river and the 25th April bridge
